

# DABO HAMMAADAMA HAMMADU

Mobile: +96876782250, +96879902327 Email: [hhdabojada@gmail.com](mailto:hhdabojada@gmail.com)

Portfolio: <https://dabohammadu.github.io/>

Address: No. 58 Ras Al Hamrah Street, PDO Residential Qurum, Muscat, Oman.

---

## Professional Summary

Strategic Data Science and ERP Transformation professional with over 7 years of experience delivering digital transformation, business process optimization, and data-driven decision-making. Expert in Python, SQL, Power BI, and leading cloud platforms (AWS, GCP, Azure), with a strong focus on predictive analytics, scalable data engineering, KPI governance, and workflow automation. Proven track record of integrating ERP systems with advanced analytics to improve operational efficiency, strengthen revenue recognition, optimize costs, and enhance executive visibility. Experienced in leading cross-functional initiatives across IT, Finance, HR, and Operations. Holds a Master's in Data Science and AI, with advanced expertise in machine learning, forecasting, and enterprise AI strategy.

## KEY COMPETENCIES

- **ERP Implementation & Digital Transformation:** Led end-to-end Odoo ERP implementations, optimizing cross-functional workflows, automating core business processes, and delivering measurable efficiency, accuracy, and revenue improvements.
- **Business Intelligence & Data Analytics:** Designed executive dashboards and KPI frameworks using Power BI and Tableau, transforming financial, operational, and HR data into actionable insights for strategic decision-making.
- **Data Science & Predictive Modeling:** Applied Python-based analytics, forecasting models, and structured ETL pipelines to support sales planning, cost optimization, workforce allocation, and performance forecasting.
- **Business Process Optimization:** Specialized in AS-IS/TO-BE process mapping, ERP workflow configuration, compliance controls, and automation strategies to reduce manual effort and enhance operational governance.
- **Portfolio & Performance Monitoring:** Implemented data-driven monitoring frameworks to track digital initiatives, manage risk, control costs, and ensure alignment with organizational KPIs.
- **Stakeholder Engagement & Change Management:** Collaborated across IT, Finance, HR, and Operations to drive ERP adoption, digital capability building, and sustainable transformation outcomes.
- **Continuous Improvement & Innovation:** Led process re-engineering and analytics-driven optimization initiatives to improve scalability, transparency, and long-term business performance.

## **WORK EXPERIENCE**

**Superiority of Modern Services(SOMS) Muscat, Oman.**

***(February 2024- to date)***

**Data & Business Analyst, Data Scientist, and ERP Functional Analyst**

- Designed and maintained executive KPI dashboards using SQL, Power BI, Power Query, Tableau, and Advanced Excel, consolidating financial, operational, and HR datasets to improve reporting accuracy and accelerate executive decision-making by 30%.
- Developed predictive analytics and machine learning models (Python) for sales forecasting, revenue projection, workforce demand planning, cost optimization, and tender scoring, enabling proactive strategic planning and scenario simulation.
- Built data models and feature-engineered structured ERP datasets to improve forecasting accuracy and business performance monitoring.
- Served as primary focal person for onboarding, automations, and invoicing Major contracts for **ACME cleantech (Contract value OMR 800,000 (USD 2.8M))** and **Oman Energy Association OPAL (Contract Value OMR 1.8M, USD 4.7M)**
- Designed and governed ETL pipelines and data transformation frameworks to ensure clean, structured, and analytics-ready datasets across ERP and BI systems.
- Led enterprise-wide ERP transformation initiatives, combining business process re-engineering, automation, and analytics strategy to enhance scalability, transparency, and measurable ROI.
- Architected and functionally designed end-to-end business workflows (CRM → Job Costing → Sales → Projects → Invoicing → Accounting), aligning ERP capabilities with financial and commercial objectives, improving billing accuracy by 30%+, reducing 200+ manual hours monthly, and accelerating revenue recognition by 25%.
- Designed contract-based invoicing frameworks integrating timesheets, milestones, pricing logic, and compliance policies, reducing invoicing errors by 40% and strengthening financial governance.
- Directed full ERP implementation lifecycle: requirements elicitation, AS-IS/TO-BE process mapping, solution design, configuration oversight, UAT coordination, deployment management, and post-go-live stabilization.
- Optimized procurement, inventory, and payroll processes through structured approval matrices, cost allocation models, accounting integration, and compliance controls, reducing reconciliation effort by 50% and payroll processing time by 35%.
- Implemented employee and recruitment self-service solutions to streamline HR operations, increasing system adoption by 35% and reducing administrative workload by 50%.
- Delivered structured training, analytics enablement sessions, and change management programs to improve digital literacy and drive a data-informed culture across business units.
- Provided continuous system performance monitoring, enhancement roadmaps, and

analytics-driven improvement recommendations to ensure long-term operational efficiency

**Envio Logistics Inc., Abuja, Nigeria.**

***(January 2021- January 2024)***

**Data & Strategy Analyst**

- Managed the Bolt Benefits program for OnePipe with a vehicle asset under management value of **\$91,954**.
- Designed customer segmentation and churn prediction models, boosting retention by 15%.
- Developed digital business KPIs and reporting dashboards (Power BI/Tableau) to track logistics growth and operational efficiency.
- Conducted A/B testing for optimization initiatives, improving operational efficiency.
- Forecasted vehicle demand via ML modeling, reducing idle fleet time by 20%.
- Built Power BI/Tableau dashboards to monitor logistics, incentives, and growth KPIs.
- Conducted A/B testing and customer segmentation for strategic decision-making, boosting retention and reducing idle fleet time.
- Delivered market intelligence and process automation projects, supporting digital strategy for expansion across 5 cities.

**Spectra Business Intelligence Limited, Abuja, Nigeria**

**Business Data Analyst**

***(July 2020-December 2020)***

- Coordinated the capacity-building training for Ahmad Bawa & Co.
- Developed revenue performance models for stakeholder reporting.
- Managed and optimized internal databases, enhancing real-time reporting.
- Provided actionable insights for business development through ad-hoc analytics.
- Developed performance dashboards and reporting models to track revenue and stakeholder KPIs.
- Delivered process improvement recommendations to management for data-driven decision-making.

**Kano Electricity Distribution Company (KEDCO) PLC, Kano State Nigeria**

**Organizational Development & Design(OD&D) Analyst**

***(June 2019- June 2020)***

- Prepared post-training reports for the Learning and Development Team.
- Coordinated at the 2019 promotion interview exercise.
- Analyzed monthly staff performance and sales representatives' KPI reporting.
- Built dashboards and reports to support HR decision-making processes.
- Conducted statistical analysis on employee surveys and training outcomes.

**Debt Management Office (DMO) Abuja, Nigeria**

**Information Technology & System Assistant**

***(February 2017- August 2017)***

- Daily backup of government debt data using the Commonwealth Secretariat Debt Recording Management System (CSDRMS) software.
- Performed monthly bond auction analyses using Bloomberg Terminal Software.

- Installed Microsoft Office 2016 Professional on 120 Computer systems and workstations.
- Performed IT system maintenance, software deployment, and network troubleshooting

## **SKILLS & TECHNOLOGIES**

- **Languages & Tools:** SQL, Python, R, Stata, Scikit-learn, XGBoost, LightGBM
- **Visualization & BI Tools:** Power BI, Tableau, Looker, Excel, Google Data Studio
- **Cloud & Data Platforms:** Google BigQuery, GCP (Google Cloud Platform), Amazon Web Services(AWS), Microsoft Azure.
- **Experimentation & Statistical Analysis:** A/B Testing, Causal Inference, Predictive Analytics, CLTV Modeling, Customer Segmentation, Performance Management
- **Data Engineering & Pipelines:** Airflow, ETL Workflows, Data Modeling, Odoo ERP
- **ERP & Systems:** Odoo ERP implementation, business process automation, Zoho, SAP, KPI Tracking,
- **Soft Skills:** Communication, Problem Solving, Collaboration, Adaptability, Ownership, Stakeholder Management.

## **CERTIFICATION AND TRAININGS**

### **Professional Certifications**

- Microsoft Certified: Data Analyst Associate (Power BI) – Advanced dashboards, KPI reporting, and business intelligence solutions.
- **Tableau Desktop Specialist** – Interactive visualization design, analytics, and data storytelling.
- **Python for Data Science & Machine Learning** – Predictive modeling, automation, and advanced analytics using Python libraries.
- **Google Cloud Platform (GCP) Fundamentals** – BigQuery, cloud-based ETL workflows, and ML deployment.
- **AWS Certified Cloud Practitioner** – Foundational knowledge of cloud environments and scalable architecture.

### **Internal Trainings & Workshops**

- **Odoo ERP Functional Training** – ERP implementation, workflow automation, KPI dashboards, and operational reporting.
- **Project Management**– Project planning, execution, risk management, and stakeholder coordination.
- **Digital Talent Enablement Workshop (SOMS)** – Trained HR and cross-departmental teams on digital adoption and business optimization.
- **Fleet Management & Telemetry Training** – Vehicle asset monitoring, data-driven fleet optimization, and performance tracking for operational efficiency.

## **EDUCATION**

### **International Master's Degree in Data Science**

Rome Business School(RBS), Rome, Italy.

*(March 2025- March 2026).*

### **Bachelor of Technology (B. Tech) Statistics and Operations Research**

Modibbo Adama University of Technology (MAUTECH) Yola, Nigeria

*(2013 – 2018)*
